

**PARAGON**  
AM Technologies

3D printing for  
Production!

**POLYMER ADDITIVE MANUFACTURING SOLUTIONS**

**ROBOTICS**

Lighter, customised,  
geometrically complex, low  
volume parts to increase  
robot efficiency.

- EOAT
- Camera Housing
- Cable Management
- Electronics Housing
- Connectors

**LIGHTER PARTS**

Lighter parts translate to more efficiency in the robotics system.

**TOOL FREE EOAT**

Customised parts without expensive tooling or long lead times.

**COMPLEX GEOMETRIES**

Consolidate complex geometries into single parts without multiple tools or design constraints

**REDUCED COSTS**

Eradicate tooling costs. Shorter lead times. Less material wastage.

**PARTS ON DEMAND**

Lower inventories. Faster turnaround times.

**TOWARDS SUSTAINABILITY**

Less material wastage. More recyclability in production.
